Adonis Puente

Software Engineer

Miami, Florida | 786-612-4881 | adonis.puente@gmail.com | [Portfolio Site](#) | [GitHub](#) | [LinkedIn](#)

SKILLS

Computer Science Fundamentals | Data Structures & Algorithms

JavaScript | Java | PHP | React | Redux | Python | SQL | HTML | CSS | Git | Heroku | Docker | Retool

EMPLOYMENT

Software Engineer | Bolt Mobility   *July 2021- Present*

- Built an Admin Dashboard for the company used to solve disputes with customers, perform CRUD operations on geofences, and manage fleets of scooters.
- Reported to the Product Manager to communicate effective ways of improving features to release a road map.
- Created extensive written documentation including GIFS, and Youtube Videos to navigate the admin panel I created.
- Reviewed code snippets and assignments regarding features on new releases.
- Ran weekly meetings regarding bugs, new features, and new directions for the admin platform.
- Wrote backend PHP code that allowed for the manipulation of user information and device state.
- Wrote backend PHP integrated controller test.

Team Lead | Lambda School   *July 2020 - Sept 2020*

- Responsible for debugging or guiding 7 student developers in finding solutions when encountering challenges
- Reported to the Section Lead to communicate effective ways of improving the student developer experience
- Held large daily meetings with the purpose of keeping developers on track with deadlines
- Reviewed code snippets and assignments, providing individualized feedback for developers
- Facilitated support hours where any developers can come in and ask for project assistance

PROJECTS
